DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: prior art of record such as Bourrelly and Thayer et al show a brush comprising a stem and a plurality of bristles which are held between two intertwined wire sections with the bristles passing through a helical reinforcing element, however, prior art of record failed to show the reinforcing element is formed by two individual flights of helix each of the flights having a first end engaged to each other at a first end of the reinforcing element.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Bourrelly is cited to show the state of the art with respect to a brush with a reinforcing element.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robyn Doan whose telephone number is (571) 272-4711. The examiner can normally be reached on Mon-Fri 8:30-6:00.

Art Unit: 3732
